For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

SP3945917
MAIN BEARING SET,STD

Fits Applications:

- .6CTA,
- QSC,
- QSL

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

**CYLINDER LINER KIT
SP3800328
(3948095 BARE LINER)**

Fits Applications:

- . 6CTA,
- QSC,
- QSL

**NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS &
SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY**

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

VALVE KIT EXHAUST

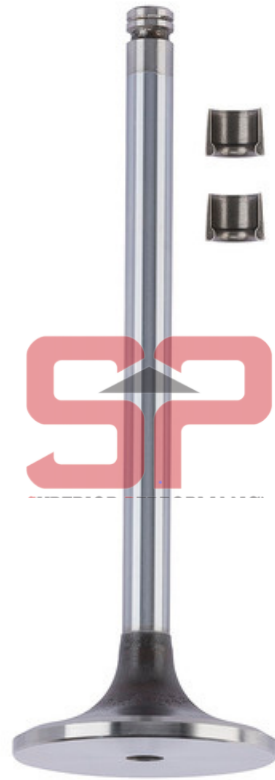

Fits Applications:

- . SP3802085 6CTA,
- (SP3921444)
- SP3800341 QSC/QSL
- (SP3942589)

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

VALVE KIT, INLET

Fits Applications:

- . SP3802463 6CTA,
- (SP3924492)
- SP3800340 QSC/QSL
- (SP3942588)

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

PISTON RING SET, SINGLE CYLINDER

Fits Applications:

- **SP3802429 6CTA**
- **SP3802358 QSC**
- **SP4089644 QSC/QSL**

**NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS &
SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY**

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

CONNECTING ROD BEARING UPPER/LOWER

SP3901430 C,QSC

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

SP3923478
CAMSHAFT

REPLACES OLD PART NO.SP3914640,SP3920065

**NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS &
SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY**

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

VALVE GUIDE

Fits Applications:

- SP3923564 6CT
- SP3948102 QSC/QSL

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

VALVE SEAT INTAKE

- **SP3924582 6CTA**
- **SP3940152 QSC/QSL**

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

VALVE SEAT EXHAUST

- **SP3924583 6CTA**
- **SP3940153 QSC/QSL**

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

PISTON BODY W/O PIN

- **SP3929161 6CTA**
- **SP3923537 6CTA**
- **SP3917707 6CTA**
- **SP3943367 QSC**
- **SP4933120 QSC**
- **SP4941395 QSC**
- **SP4941396 QSL**

**NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS &
SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY**

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

OIL COOLER

SP3974815 6CTA

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

CAMSHAFT BUSH

- SP3945329
- SP3943199

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

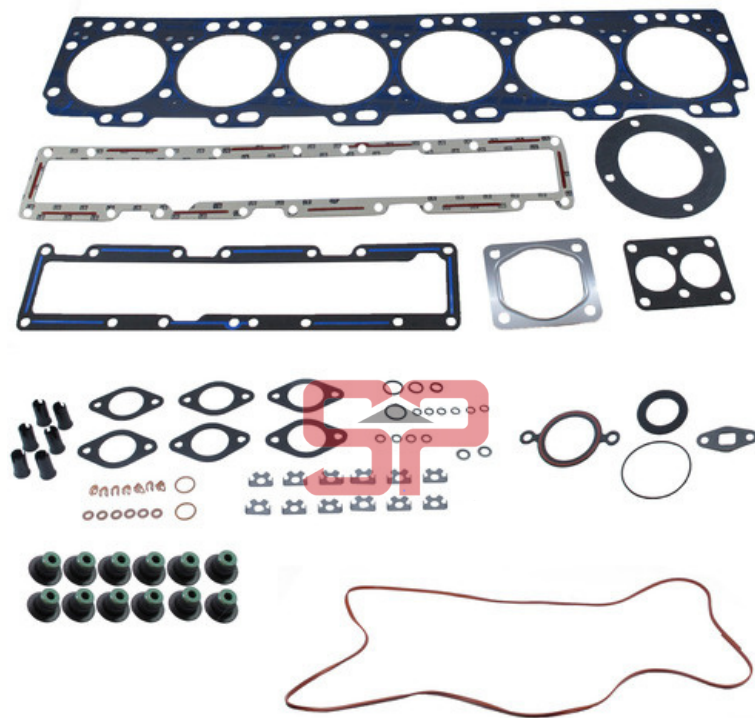

CON ROD BUSH

- **SP3970951 6CTA**
- **SP3913990 6CTA**
- **SP4944137 QSC/QSL**

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

HEAD GASKET SET

- SP4025271 6CTA
- SP4089958 QSC/QSL

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

LOWER GASKET SET

SP3800558 6CTA

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

LOWER GASKET SET

SP4089889 QSL

NOTE : ALL ORIGINAL EQUIPMENT MANUFACTURERS NAMES , NUMBERS & SYMBOLS USED IN THIS CATALOGUE ARE FOR REFERENCE ONLY

For commercial engines, SP Diesel provides a full line of premium engine and sealing parts. They are designed to meet specific demands for high load, high temperature applications, using cutting-edge metallurgy and specialised coatings.

LOWER GASKET SET
